

YACHT, RECREATION, & SPORTFISH APPLICATIONS

AB100

This 100-ft luxury yacht built by AB Yachts in Italy features triple MJP 500 DRB waterjets and is capable of 60 knots.

DOCK WITH CONFIDENCE

Unmatched speed, maneuverability, shallow water capability, and safety make MJP waterjets the first choice of yacht and recreational boat builders globally. MJP's stainless steel construction and industry leading 5-yr warranty leave other manufactures in our wake. The MJP line of waterjets ushers in a new era of water propulsion performance with state-of-the-art controls including stay-on-spot GPS positioning control and fishing mode for incredible control while trolling, stopping, accelerating, reversing, and spinning so you can focus your energy on catching that trophy fish.

With optimized mixed-flow pumps capable of speeds in excess of 50 knots, buckle up. Our waterjets are designed to be fast, efficient, and powerful while giving you complete control of your vessel, even in extremely shallow water. Slide sideways, spin on a dime and slip effortlessly into your dock with confidence.

ROYAL FALCON ONE
Royal Falcon One is a 41.14m power catamaran developed by the Singapore-based Royal Falcon Fleet. Royal Falcon is designed by the iconic Porsche Design Studio and features dual MJP 850 CSU waterjets can reach a top speed of 35 knots.

JETMASTER 3 CONTROL SYSTEM

NEXT-GEN LINE OF PRECISION CONTROLS

At MJP we do everything we can to deliver ultimate performance to the captain. That's why we have engineered our line-up of Jetmaster 3 Controls to give you total command at full throttle or hairline precision while maneuvering in the harbor. Extreme engineering and testing make our controls the most capable on the market. Our endless combination of features and controls, ease of use, and intuitive movements will give you complete mastery of your vessel even in the harshest conditions.

DYNAMIC POSITIONING

MJP's DP0 system provides GPS positioning control to stay on spot, hold heading and virtual anchoring.

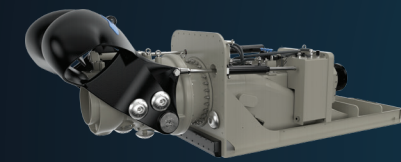

VECTOR CONTROL SYSTEM

Gain precision control of harbor maneuvers and low speed positioning at sea. Idle RPM speed can easily be adjusted to increase responsiveness.

FISHING MODE

Troll, stop, accelerate, spin, and reverse the vessel with ease. Avoid water turbulence or entanglements of lines.

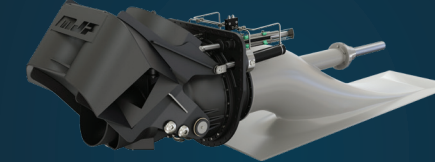

X-SERIES

HIGH-SPEED, FUEL EFFICIENT, MIXED-FLOW WATERJET

READY-TO-GO INSTALL
HIGH SPEED / LOW COST

MAX KW 611–2,070 kW
MAX BHP 819 - 2,776 BHP
FOR VESSELS 12m - 40m

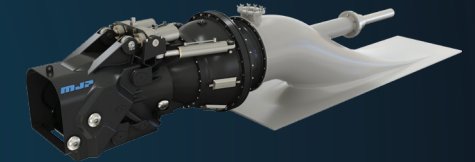

DRB

MIXED FLOW HIGH-EFFICIENCY WATERJET WITH INBOARD HYDRAULICS

EXCEPTIONAL STRENGTH
INCREDIBLE MANEUVERABILITY

MAX KW 1,000 kW–9,000 kW
MAX BHP 1,341 BHP–12,069 BHP
FOR VESSELS 26m - 200m

CSU

CLASSIC MIXED-FLOW HIGH-EFFICIENCY WATERJET

DESIGNED FOR SMALL SPACES
HIGHLY CUSTOMIZABLE

MAX KW 1,500 kW–21,000 kW
